22nd November 2024

To the countries and blocs of the G77+China,

We, the collective civil society constituencies and members present at COP29, and with broader global civil society behind us, wholeheartedly support you in rejecting the current negotiating text. This text is absolutely unacceptable and gives the developed countries a complete exit from their obligations to provide climate finance for developing countries.

We urge you to stand up for the people of the Global South and we insist: no deal in Baku is better than a bad deal, and this is a very, very bad deal because of the intransigence of developed countries. If nothing sufficiently strong is forthcoming at this COP we urge you to walk away from the table to fight another day, and we will fight the same fight.

Signed-
